Note: A Similar pattern will be followed in physics, chemistry & mathematics.

SAMPLE ENGLISH PAPER

Read the following passage and answer the questions that follow with the **ONE BEST** answer.

Students in general dislike forming new habits and avoid such work as far as possible. One reason for this is that habit-forming often entails monotonous work; another reason is that the forming of a habit seems a slow process; so many repetitions are required and progress is not at once apparent. We know, however, that in reality what we have learnt, as the result of a habit is not only available at all times, but is also a permanent acquisition.

1. Habit-forming
 - a. requires repetitious work.
 - b. entails a great deal of variety.
 - c. is an expeditious process.
 - d. All of the above are correct.

Answer:

A	B	C	D	E
---	---	---	---	---
